

Wow! The last time I looked this was America and we beleived in the free market place. I know that many Democrats do not believe in this but to here a fellow Republican introduce a bill that will restrict competition is just astounding to me. I thought we as Republicans believed in the principals that we do not want Governement to regulate business and we do not want governement interfering with the principals of Capitalism. Again I know that Democrats want regulation on everything since they believe in Socialism but we as Republicans should not be falling into the Democrats views. For you to introduce a bill the will limit competition on traffic and weather for satellite radio is incredible, and I am sorry but there is no other way to put it, it is stupid. What is wrong with competition?
